## Dixie School District

### 2nd Interim 18/19

Our school district is required to submit budget reports to the governing board during each fiscal year; the original Adopted Budget, First Interim, Second Interim and Unaudited Actuals. The original Adopted Budget is required by law to be adopted each year by June 30th of the preceding year. The First Interim Budget covers the financial and budgetary status of the district for the period ending October 31st and must be approved by the Board no later than December 15th. The Second Interim Budget covers the financial and budgetary status of the district for the period ending January 31, and must be approved by the Board no later than March 15.

This budget includes the General Fund of the District for the current and two subsequent years in addition to the Criteria & Standards and other supplementary schedules and information.

Keep in mind that a budget and multi-year projections are just that- projections, not forecasts. Projections are expected to change as various factors change, they are not predictions. Projections are the mathematical result of today's decisions based on a given set of assumptions. Forecasts, on the other hand, are predictions of the future; there is a higher implied reliability factor than for projections. Projections will change anytime the underlying factors change.

#### The Big Picture

### Status of the Budget: **Positive**

The district will meet its financial obligations for the current and two subsequent fiscal years.

#### Unrestricted Fund Balance and Reserve Levels

	<u>2nd Interim</u>	<u>19/20</u>	<u>20/21</u>
Beginning Fund Balance	2,235,552	2,081,736	2,118,677
<b>Change in Fund Balance</b>	<b>(153,816)</b>	<b>36,941</b>	<b>(145,875)</b>
Ending Fund Balance	2,081,736	2,118,677	1,972,802
Reserve for Economic Uncertainty	2,078,736	2,115,677	1,969,802
Percentage of Total Expenditures	8.2%	8.5%	7.7%
Minimum Reserve Met (Not Met) by:	-	-	-

**Fund Balance is projected to decrease over the next three years by: (262,750)**

**The district will need to make adjustments to expenditures to cover increasing expenditures in the out years. This will need to be addressed since it is depleting the fund balance over the reporting period and is reducing the reserve over the reporting period.**

---

**Unrestricted Revenue**

- The change in LCFF funding is due to the adjustment of enrollment and ADA projections. The projections were reduced to a more conservative projection based on actual revised enrollment counts. The projections are based on enrollment of 1,983 with ADA of 1,907 for the current year. The COLA is funded at 3.7%
- No Unrestricted Federal Revenues are received by the district.
- The changes to State Revenues include a small adjustment due to prior year unrestricted lottery allocation.
- The changes to Local Revenues include increased revenues for transportation fees of \$16,089, increased revenues for facilities use of \$3,459 and increased misc revenues of \$2,625.

**Unrestricted Expenditures**

- Adjustments due to budgeted certificated positions at actual salary and sub costs projected in addition to the transfer of allowable teacher instruction costs to the parcel tax funding.
- Adjustments due to budgeted classified positions at actual salary and sub costs projected.
- Significant changes to the PERS & STRS contribution rates are reflected in statutory benefits. All statutory benefits are adjusted for current wages.
- Adjustments to the Materials & Supplies budgets reflect a decrease to textbooks, decreased budget for books & reference materials, increase to classroom supplies, for an overall decrease to the budget of \$27,056.
- These changes are due to increased rates for utilities, bus repairs, increased adjustment to election costs, increased adjustment to legal costs, increased contract services such as outside bus drivers, professional development services, contracted nursing or health services.
- There are no unrestricted capital expenditures at this time.
- There is no change to the NPS/SDC transfer to MCOE.
- Indirect costs are recognized and adjusted for allowable rates on allowable programs.
- The transfer from Fund 40 has been revised from 1st Interim. The revision is to cover the minimum required reserve balance in Fund 40.
- There was a significant increase of the contribution to special education for student costs. Additionally, there are more special education costs that are in the pipeline that have not yet been estimated; this will continue to increase the special education contribution even higher before the end of the year.
- Increased costs in the cafeteria program required an increased transfer. This should be reduced in the out years as the new food service program is implemented at 2 sites.

**Restricted Beginning Fund Balance**  
**673,383**

**Restricted Revenue**

- The changes to Federal Revenue include an increased award from Title I of \$2,632, recognition of deferred revenue of \$8,259 to Title III, and an adjustment to Federal Special Education funding of \$9,410.
- The changes to State Revenues include an award for Classified Employees Professional Development Block Grant, \$11,436 and an increase to the State Special Education funding of \$4,784.
- The changes in local revenues include an increase for revenues from Can Do!, Home & School Clubs, miscellaneous donations, Ed Foundation revenues, Coloma and Walker Creek revenues.

**Restricted Expenditures**

- Adjustments due to budgeted certificated positions at actual salary and sub costs projected. Main areas are special education, Low Performing Student Block Grant salaries, increased allowable parcel tax salaries, and other misc adjustments.
- Adjustments due to budgeted classified positions at actual salary and sub costs projected. Main areas of special education and locally funded positions.
- Significant changes to the PERS & STRS contribution rates are reflected in statutory benefits. All statutory benefits are adjusted for current wages.
- The increased budget for Materials & Supplies includes an increase to Title I of \$5,419, an increase of allowable supplies from the parcel tax funding of \$8,550 and misc donations in the amount of \$18,306.
- The majority of the increase to Operating Expenditures is a result of increased costs for specialized services for special education and increased costs for legal services. Other costs recognized here are increased costs for music, general education, and other small miscellaneous operating expenditures.
- There are no changes in Capital Outlay at this time.
- This decrease in Other Outgo is the revised Excess Cost for Special Education that is paid to MCOE.
- Indirect costs are recognized and adjusted for allowable rates on allowable programs. Final adjustments are made at year end for the actual costs as allowable for specific programs.
- There is no Transfer In activity at this time.
- The reduction in the contribution is due to the reduction of the Special Education Excess Cost of \$94,028 and an increase of \$23,057 in State funded Special Education for an overall reduction in contributions.
- There is no change to the Transfer Out activity.

**Ending Fund Balance**

Unrestricted Ending Fund Balance	2,081,736	
Restricted Ending Fund Balance	<u>184,283</u>	
Total Ending Fund Balance	2,266,019	
Reserve for Economic Uncertainty	2,078,736	8.2%

It is recognized that these are extraordinary economic times and it is difficult to gauge the future. School budgets should be managed with a great deal of conservatism over the next few years. It is generally advised that we maintain reserves much greater than the minimum 3%. Ideally the District would maintain the recommended 10% to 17% reserve. However, our current MYP reflects a decreasing fund balance due to deficit spending.

Change since 1st Interim	93,904
--------------------------	--------

**Comments:**

The majority of the increase to Operating Expenditures is a result of increased costs for specialized services for special education and increased costs for legal services. Other costs recognized here are increased costs for music, general education, and other small miscellaneous operating expenditures.

The District is deficit spending. The deficit spending is depleting the reserve balance and cannot be maintained over an extended period of time. Considerations should be made in the current year for out years to reduce deficit spending. The deficit exist even with the increasing COLA of the parcel tax and recognition of income from the rental properties.
